

INTELLISHIELD

Engineered for Extremes.

UPS systems built for the harshest environments—delivering reliable power with minimal cooling requirements.

Reduced system complexity and total cost of ownership

Reduced maintenance – more robust design means less maintenance

Up to 250K hours MTBF – designed for mission-critical uptime

Certified tough: MIL-STD-810, MIL-STD-461, MIL-STD-1399, CE, and UL

ENSURING MICROGRID RESILIENCE FOR CRITICAL POWER SYSTEMS AND COMPONENTS
